The Foundation Quartz Collection — Premium Quartz, Now More Affordable Than Ever

This winter, Marble.com is excited to present the **Foundation Quartz Collection**—a curated lineup of premium quartz surfaces offered within a simplified three-tier pricing structure. Created to bring clarity, consistency, and real value to the countertop buying experience, this limited-time promotion gives homeowners access to high-end quartz designs starting at just **$59 per square foot**, with **no slab upcharge**—even on smaller projects.

For years, quartz pricing has been complicated by supplier inconsistencies, unpredictable slab availability, and uneven cost structures. The Foundation Collection was created to solve that challenge by focusing on a growing selection of **designer-curated, top-performing quartz surfaces** that reflect today's most desirable aesthetics—soft Carrara movement, warm modern veining, contemporary Calacatta styles, and premium patterns rarely available at accessible price points.

The Foundation Collection includes:

Borghini Silver Quartz, Calacatta Rocky Quartz, Calacatta Bella Quartz, Samira Gold Quartz, Antico Grey Quartz, Cloudy Mist Quartz, Soaring Statuario Quartz, Volakas White Quartz, Calacatta Giana Quartz, Ocean Ripple Quartz, Nero Marquina Quartz, Van Star Quartz, Ocean Gold Quartz, Pentium Brown Quartz , Calacatta Monet Quartz, Carrara Brown Quartz, Carrara Venato Quartz and Taj Mahal.

Among these, the inclusion of **Taj Mahal Quartz** is especially noteworthy—a **highly sought-after material** known for its elegant quartzite-inspired beauty and subtle warm veining. This style typically appears only in top-tier luxury projects, yet it is now featured within the Foundation Collection—**a rarity at this price point** and an exceptional value for homeowners seeking a premium look without the premium cost.

Three Tiers. One Seamless Experience.

The Foundation Collection is structured into **three pricing tiers**, designed to simplify decision-making without limiting design exploration. We intentionally do not publish which materials belong to which tier so customers feel free to choose based on aesthetics first. Our specialists will guide homeowners through the pricing during selection—ensuring clarity, transparency, and confidence throughout the process.

What Makes the Foundation Collection Different

? No slab upcharge—even for smaller kitchens and vanities

By stocking Foundation Collection materials consistently and sourcing strategically, we eliminate common penalties associated with partial slabs or multi-slab projects. You pay only for the square footage you need.

? Starting at just $59/sq. ft. for qualifying projects

This creates incredible value for remodels, rentals, flips, and homeowners looking to upgrade without exceeding their budget.

? A growing selection of high-quality quartz surfaces

Every color in this line was chosen for beauty, versatility, durability, and long-term performance.
No outdated patterns. No filler colors. Only essential, sought-after designs.

? Premium-level manufacturing standards

All slabs are produced with high quartz content, consistent coloration, durable resin technology, and excellent stain/heat resistance—providing both visual appeal and long-term functionality.

? Faster project timelines

With short lead times and reliable inventory, these materials allow quicker templates, efficient fabrication, and on-time installation.

? Complements all design styles

From white shaker cabinets to modern black, soft gray, blue, natural oak, walnut, and transitional color palettes—the Foundation Collection includes universally compatible options.

Why Homeowners, Designers & Builders Choose It

This collection benefits every type of customer:

- **Homeowners** enjoy clear pricing and beautiful design.
- **Designers** gain dependable, versatile surfaces they can confidently specify.
- **Builders** appreciate efficient scheduling, strong availability, and consistent fabrication quality.

The Foundation Collection was engineered to streamline the buying process while offering premium aesthetics at accessible price points.

Disclaimer:

Prices apply exclusively to materials included in the Foundation Quartz Collection. Final pricing may vary based on total square footage, cutouts, edge selection, installation distance, job complexity, and site conditions. The advertised “starting at $59 per sq. ft.” refers to Tier 1 pricing under standard installation parameters.
