- [Why Choose Quartz Countertops?](#)

Quartz countertops have risen in popularity due to the attractive appearance and easy maintenance the surfaces offer. Caesarstone is one of the world’s largest producers of quartz countertops and is one of the top options you will find on the market. The countertops are available in many different styles, some of which resemble natural stone. With all the options available, you are sure to find a countertop that you like. This guide will inform you of the dimensions of [Caesarstone quartz slabs](#).

What Are the Sizes Offered by Caesarstone?

Caesarstone’s products are offered in two different sizes: Original and Jumbo. Original is a standard size quartz slab, while jumbo is larger than normal and is suitable for larger countertops. The table below provides details on the size options of Caesarstone slabs.

Caesarstone Sizes		
	Original Slabs	Jumbo Slabs
Dimensions	56 ½ inches tall by 120 inches wide	64 ½ inches tall by 131 ½ inches wide
Thickness	1.3, 2 or 3 centimeters thick	2 or 3 centimeters thick

Original

Jumbo

Why Choose Quartz Countertops?

Quartz countertops are popular with homeowners because of the wide range of appearance options they offer, as well as the fact that the surfaces are easy to clean and non-porous (meaning you will not have to seal them). Quartz is a viable alternative to natural stone countertops and can even be manufactured to replicate the look of natural stone.

Whether you just need an original slab or your remodel requires a jumbo slab, Caesarstone will have an option that can work for you. Reviewing this guide will help you plan out what size to buy when looking at Caesarstone quartz countertops.
