[Frequently Asked Questions](#)

White kitchens remain among the most popular styles seen in homes. While you can choose to have all white elements in your kitchen, such as white cabinets and white countertops, there are also various other combinations that work well.

While natural stone options, like granite countertops, are a great choice for the home, there are plenty of [quartz countertop](#) options that will be a great pair for your white kitchen cabinets as well. When it comes to kitchen design, quartz will give you a seemingly endless amount of options to choose from.

Which Quartz Countertop Colors Look Good with White Cabinetry?

One of the major benefits to quartz countertops is the wide range of colors and styles available. From bright white to taupe to black, there is a color that will pair well with your kitchen cabinets. Keep in mind that your cabinet color and countertop color do not necessarily have to match in order to pair well. While matching looks great, selecting a contrasting color can make just as good a visual impact. The following kitchen countertop design ideas will help you effectively plan your kitchen remodel.

White Quartz Countertops

If you are looking for a nice color to pair with white cabinets, you can certainly choose white countertops. Opting to match your countertops and kitchen cabinets can create a beautiful consistent look for the room. Below are some of the best white quartz countertops you can pair with your cabinets.

Vena Pure White Quartz

If you want a pure white kitchen, [this quartz countertop](#) will certainly be the ideal fit for you. It will help you achieve a consistent look for the room.

Vena Statuario Bianco Quartz

You do not necessarily have to choose a pure white countertop to match your white cabinetry. If you are looking for something with veins that resemble marble, [Vena Statuario Bianco quartz](#) is a great option.

5031 Statuario Maximus Caesarstone Quartz

Staying with the theme of quartz that resembles marble, [5031 Statuario Maximus Caesarstone quartz](#) is another great option for your kitchen. This white countertop features dark grey veining.

4001 Fresh Concrete Caesarstone Quartz

This [beautiful quartz surface](#) will be a magnificent pair for white cabinets. The material is subdued, yet still very stylish.

Beige Quartz Countertops

Perhaps you want a surface that is not white but not dark in color either. If that is the case, beige quartz will be a great fit for your home. In addition, since beige is a neutral color, the countertops can pair well with any kitchen elements, from white cabinets to dark cabinets and various different appliance colors. It will also pair well with any backsplashes in the kitchen, from subway tile to stainless steel. Beige countertops are a terrific versatile choice for any kitchen.

4220 Buttermilk Caesarstone Quartz

This [beige surface](#) is a great option to pair with white kitchen cabinetry. If you want a countertop that is a consistent beige color, this is your best choice.

9601 Oyster Caesarstone Quartz

[9601 Oyster Caesarstone quartz](#) features beautiful black speckles that complement the cream-colored background of the material. If you are searching for something that has a little bit of character to it, this quartz will be an ideal fit.

6046 Moorland Fog Caesarstone Quartz

This excellent beige quartz has dark brown veining that makes the stone pleasing to the eye. You cannot go wrong choosing [6046 Moorland Fog Caesarstone quartz](#) to complement your white cabinetry.

4230 Shitake Caesarstone Quartz

On the darker end of the beige spectrum, you will find this beautiful countertop material. [4230 Shitake Caesarstone quartz](#) will look terrific paired with your white cabinets.

Grey Quartz Countertops

Other than beige, grey is another common countertop color that fits in well with any décor. Whether your kitchen has light or dark cabinetry or other elements, grey countertops will look fantastic. Whether it is kitchen countertops or kitchen island countertops, both will be a great fit for grey quartz.

6313 Turbine Grey Caesarstone Quartz

The dark grey and black veining present in the slab give [6313 Turbine Grey Caesarstone quartz](#) beautiful character. This material is an excellent choice to pair with white cabinetry.

4033 Rugged Concrete Caesarstone Quartz

[This grey quartz](#) features a small amount of veining that gives the material a stylish look. It is an excellent choice for any kitchen remodel.

Copacabana Quartz

[Copacabana quartz](#) is a gorgeous consistent grey countertop. It is a wonderful choice for any kitchen with white cabinets.

River Bed 680 Quantra Quartz

[River Bed 680 Quantra quartz](#) is a great example of quartz that resembles granite. In terms of the color, the grey tones of the material are an excellent choice to pair with your white cabinets.

6003 Coastal Grey Caesarstone Quartz

If you are looking for a stunning darker grey surface, [6003 Coastal Grey Caesarstone quartz](#) can give you exactly what you are looking for. With its dark grey tones, you can contrast white cabinetry without selecting brown or black quartz.

Brown Quartz Countertops

For homeowners looking for more of an earth tone color to their countertops, brown quartz is a terrific choice. You will be able to find a wide range of beautiful browns that will be a nice complement to your white cabinetry.

6350 Chocolate Truffle Caesarstone Quartz

[6350 Chocolate Truffle Caesarstone quartz](#) falls in the lighter end of the spectrum of brown quartz countertops. The brown and beige spotting of this material add visual appeal.

2370 Mocha Caesarstone Quartz

This [consistent brown quartz](#) has black speckles throughout. It is a beautiful option to pair with your white cabinetry.

4360 Wild Rice Caesarstone Quartz

White and black speckles complement the darker brown background of this quartz. If you want a quartz countertop that will add some contrast to your kitchen, [this material](#) is a great option.

6684 Caldera Caesarstone Quartz

[6684 Caldera Caesarstone quartz](#) is a dark brown material with brown and light beige veins. This countertop will be as close to black quartz as you can get without choosing a type of black quartz.

Black Quartz Countertops

If you are looking for countertops that will totally contrast your white cabinets, black quartz can give you what you desire. The options detailed below are some of your best when it comes to black quartz countertops.

Lunar Night 1525 Quantra Quartz

The white speckles present in [Lunar Night 1525 Quantra quartz](#) make the material appear as if it is a night sky scene. You cannot go wrong choosing this excellent black quartz for your countertop.

5100 Vanilla Noir Caesarstone Quartz

[5100 Vanilla Noir Caesarstone quartz](#) is a black quartz with beautiful white speckling. It will look wonderful paired with the contrasting white cabinets.

3100 Jet Black Caesarstone Quartz

If you want a consistent black quartz to contrast your white cabinets, [3100 Jet Black Caesarstone quartz](#) will be a terrific choice. It will be quite the stylish addition to any kitchen.

Frequently Asked Questions

Are There Other Non-Natural Stone Options that Work Well with White Cabinets?

Outside of natural stone, you will have many options for countertops. That said, not all of these options are high-quality. Options such as laminate are prone to issues with scratching, cracking and burning, so if you are looking for a good non-natural stone countertop option, quartz is the way to go.

Can You Install Your Quartz Countertops on Your Own?

No, you should not attempt to install quartz countertops on your own. The surfaces are very heavy, so this is not a DIY job – even for the most skilled homeowners.

Choosing the right countertop can leave you satisfied with your kitchen for years to come. When looking for options to pair with your white cabinets, quartz will offer many ideal selections. From light to dark and

everything in between, you will surely be able to find a quartz countertop to pair with your white cabinets.
