How Much Does Granite Cost?

On average, granite costs between \$32 to \$75 per square foot. To narrow down the price even more, because it is relatively common among granite colors, white granite is some of the least expensive you will find.

Whether you are looking for something to match or contrast your cabinetry, or just have your heart set on white granite in general, these stones are some of the best you can install in your home. Granite is beloved by many homeowners not only for its beauty, but its durability and easy maintenance requirements. Compared to many other materials, granite is one of the easiest to take care of. If you take proper care of it, your granite can stay looking as good as new for many years to come.

White granite kitchen countertops, bathroom vanity tops, kitchen island tops, backsplashes or other surfaces are great additions to any home. Between the beauty and functional benefits you will receive, you cannot go wrong choosing the stone. Reviewing this guide can help you find the best white granite with veins for your

home.
